

Dear Parents/ Carers,

Please note that Year 9 students that we have requested stay home this week due to staff shortage are to access their online learning through 365 Teams. This is very specific work set by class teachers to reflect what would be covered in lessons. Passwords have been emailed out to parents for students who expressed last week in a mentor survey that they did not know their passwords. If you are still having difficulty accessing this platform, please contact us at the following address: [homelearning@castlerocksch.uk](mailto:homelearning@castlerocksch.uk) outlining your issue.

We are certainly hoping not to have to continue with this rota system which requires one year group to stay home each week for the remainder of the term. We are working hard to put plans in place.

Many thanks for your continued support,

Mrs Clayfield
