Dear Parents/Carers,

Re: Sixth Form Applications

We are delighted that we have had 150 applications for our very successful Sixth Form. Our students' success in A levels and Level 3 BTEC Vocational qualifications is attributable to three main factors:

- The quality of education they receive
- The proven research that the longer students stay in one school the better they achieve, as they benefit from continuity of teaching and support
- Students' hard work and determination

We will now begin interviewing students who have made an application to our Sixth Form. This year we will have to do this remotely. Students will be contacted via their school email account which will explain how these interviews will take place. They will get these emails at some point over the next three school weeks.

The interviews are to ensure they have chosen the qualifications that are most suitable for their future career aspirations and where they are most likely to be successful. It will also be an opportunity for students to ask any questions they have about life as a Sixth Form student.

If you have any questions about our courses or the interview process, please contact the Sixth Form team at school.

Yours faithfully

M Frost
Director of Sixth Form
